Introduction

Multi-Year Data Information

This guide provides an overview of the United Kingdom Multi-Year data.

For general information about the United Kingdom (GBR Address) data, see the United Kingdom Data Guide. For information about a specific Additional Dataset, see the relevant Additional Data Guide.

You must have the GBR Address Dataset installed to use any of the Additional Datasets.

GBR Multi-Year Additional Datasets

Currently all Multi-Year datasets can only be used with IDentifier NameTracer Pro V5.00 (and above).

The GBR Multi-Year datasets contain Names data from a variety of sources, going back a maximum of seven years.

Experian National Canvasse (ENC)

| | |
|------------------------|---|
| Dataset Code: | GBRENC |
| Filenames: | gbrenc.ads, gbrenc.zlx |
| Approximate Data Size: | 963MB |
| Data Source: | Experian |
| Update Frequency: | Quarterly |
| Expiry: | Data files will expire 8 months after creation. |

Experian's National Canvasse is a comprehensive database of UK consumers which contains compliant register records, name and address level data from the Electoral Register, Experian's Canvasse Lifestyle database, and significant data contributions from partner organisations. The addresses are checked for accuracy alongside the Postcode Address File.

Experian's National Canvasse uses a version of the Full Electoral Register that only contains the names of those individuals who have not chosen to opt out of having their names and addresses published. Experian's National Canvasse can be used by any third party for any lawful purpose.

The data is provided as quarterly updates, resulting in more regular updates than were traditionally available with the Electoral Register. Also, individual data records will only be included within Experian's National Canvasse where there has been activity at the individual's address for the past 12 months (for example, an application for a credit card in that individual's name).

Additionally, if an individual is matched with an address according to numerous data sources, this provides a high-degree of confidence in the validity of that individual's identity.

This file has only been available since 2005, so it is currently only possible to search on data for and since that year. However, this 'earliest date' will change with time as the latest seven years will be available.

Experian Full Electoral Register (EFR)

| | |
|------------------------|---|
| Dataset Code: | GBREFR |
| Filenames: | gbrefr.ads, gbrefr.zlx |
| Approximate Data Size: | 1.10GB |
| Data Source: | Experian |
| Update Frequency: | Quarterly |
| Expiry: | Data files will expire 8 months after creation. |

Experian's Full Electoral Register contains the name and address of every individual registered to vote at the time of the Electoral Canvase in the previous year. If an individual is due to reach their eighteenth birthday during the following year, then their date of birth will also be included.

Experian's Full Electoral Register is compiled by Experian who receive local versions of the Full Electoral Register from all the local authorities in the UK. The majority of the data is collected during the Electoral Canvase that takes place in the October of the year preceding the release.

It will be possible to search as far back as 2003 in this file. However, this 'earliest date' will change with time as the latest seven years will be available.

This dataset is only available to certain organisations.

CACI Consumer Register (CCR)

| | |
|------------------------|---|
| Dataset Code: | GBRCCR |
| Filenames: | gbrccr.ads, gbrccr.zlx |
| Approximate Data Size: | 909MB |
| Data Source: | CACI |
| Update Frequency: | Quarterly |
| Expiry: | Data files will expire 8 months after creation. |

This file contains historical data from 2002 through to 2005. This file was replaced in 2005 by Experian's National Canvasse, and is no longer being updated.

However, this 'earliest date' will change with time as the latest seven years will be available. In addition, as this is an historical dataset, it will eventually be removed.

CACI Full Electoral Register (CFR)

| | |
|------------------------|---|
| Dataset Code: | GBRCFR |
| Filenames: | gbrcfr.ads, gbrcfr.zlx |
| Approximate Data Size: | 978MB |
| Data Source: | CACI |
| Update Frequency: | Quarterly |
| Expiry: | Data files will expire 8 months after creation. |

This file contains historical data from 1999 through to 2001. This register is no longer being updated with new data.

However, this 'earliest date' will change with time as the latest seven years will be available. In addition, as this is an historical dataset, it will eventually be removed.

About This Data

Area Covered

The Multi-Year Additional Dataset contains information for addresses in the following areas:

| Name of Dataset | England | Scotland | Wales | N. Ireland | Isle of Man | Channel Islands |
|-----------------|---------|----------|-------|------------|-------------|-----------------|
| GBR Multi-Year | √ | √ | √ | √ | √ | √* |

**The Experian Full Electoral Register and Experian National Canvase do not contain any Channel Island addresses. The CACI Consumer Register and CACI Full Electoral Register contain data for Jersey and parts of Guernsey.*

Address Elements

The following address elements are specific to the GBR Multi-Year data. For a full list of address elements, see the GBR Data Guide.

| Address Element | Example | Element Code |
|--------------------|---------|--------------|
| Title | Mr | N23 |
| Forename | Robert | N21 |
| Submitted Forename | Bob | N21 |
| Middle Initial | S | N22 |
| Surname | Watts | N11 |

About DataPlus Information

You can configure your QAS products to use any of the DataPlus sets that are available for GBR Address data and the GBR Multi-Year Additional Datasets. Please refer to the relevant section of the product documentation for information on configuring QAS products to return DataPlus information.

Each DataPlus set (.dap) is divided into one or more items. QAS products can be configured to return these items via the Configuration Editor (using the element name) or the configuration file (using the code name).

In addition to these DataPlus sets, GBR Multi-Year data can also be used with the DataPlus sets available for GBR Address data. See United Kingdom Data Guide for details of these DataPlus sets.

DataPlus Sets for GBR Multi-Year Data

This section details the DataPlus sets which are available with GBR Multi-Year Data.

GBR Residency

Identifier: GBRNDT

The GBRNDT DataPlus set returns details about the time period during which a particular person was resident at a given address.

| Element | Code | Description |
|---------------------|-----------|--|
| Earliest Date | Earliest | The earliest date at which a person was identified as occupying a premise, according to a particular Multi-Year ADS set. The information is displayed in the format gbrADS YYYYMM, where ADS is the 3-letter code of the Multi-Year ADS set being used (for example, ENC, the Experian National Canvase). |
| Latest Date | Latest | The latest date at which a person was identified as occupying a premise, according to a particular Multi-Year ADS set. |
| Composite Residency | Composite | A composite of the Start and End dates. For example, if a person is recorded in the ENC Multi-Year ADS set as resident at a given address between November 2003 and May 2004, the value of this field would be: "gbrenc 200311 200405". |

Experian National Canvase (ENC)

GBRENC Date Of Birth

Identifier: GBRTND

The GBRTND DataPlus set returns the date of birth for a given name.

| Element | Code | Description |
|-------------------|------|-------------------------------------|
| ENC Date of Birth | Date | Date of birth in DD/MM/YYYY format. |

GBRENC Length Of Residency

Identifier: GBRTNL

The GBRTNL DataPlus set returns the length of residency, in years, for a given name at a given address.

| Element | Code | Description |
|-------------------------|-------|--|
| ENC Length of Residency | Years | Number of continuous years that an individual has been at the given address on the National Canvase. A value of 1 indicates that this resident is new at this address. |

If the name has not been entered in exactly the same way each year into the Electoral Register, then the Length of Residency will reset to 1.

GBRENC Name Source Indicator

Identifier: GBRTNS

The GBRTNS DataPlus set returns details about the information source for a given name in the Experian National Canvase. The Name Source Code, Name Source and Name Verified are returned.

| Element | Code | Description |
|----------------------|------------|--|
| ENC Name Source Code | SourceCode | Source of Names data. The first digit of the code is 1 for the Electoral Register and 2 for other data sources. The second digit of the code is 1 if Experian have verified the name against another data supply or 0 if not. |
| ENC Name Source | SourceName | Description of the source data; either Electoral Register or Other Data Source . |
| ENC Name Verified | Verified | Value always either Yes or No , depending on whether the name has been verified against another data supply. |

Experian Full Electoral Register (EFR)

GBREFR Date Of Birth

Identifier: GBRTFD

The GBRTFD DataPlus set returns the date of birth for a given name. Date of birth information is obtained from the Full Electoral Register by Experian.

| Element | Code | Description |
|-------------------|------|-------------------------------------|
| EFR Date of Birth | Date | Date of birth in DD/MM/YYYY format. |

GBREFR Length Of Residency

Identifier: GBRTFL

The GBRTFL DataPlus set returns the length of residency, in years, for a given name at a given address.

| Element | Code | Description |
|-------------------------|-------|--|
| EFR Length of Residency | Years | Number of continuous years that an individual has been at the given address on the National Canvase. A value of 1 indicates that this resident is new at this address. |

If the name has not been entered in exactly the same way each year into the Electoral Register, then the Length of Residency will reset to 1.

GBREFR On Edited Electoral Register

Identifier: GBRTFE

The GBRTFE DataPlus set returns information about whether or not a given name is present in the National Canvasse.

If an individual is present in the current Experian National Canvasse, then they are eligible for their data to be used by any third party for any lawful reason. If the individual is not present in the Experian National Canvasse, then their details are only available on the Full Electoral Register and must only be used in accordance with the appropriate legislation.

| Element | Code | Description |
|----------------------------------|-----------|--|
| EFR On Edited Electoral Register | OnEditReg | Indicates whether an individual is present in Experian's National Canvasse Database. The value of this item is Yes if the person is present on the database or No if they are not. |

CACI Consumer Register (CCR)

GBRCCR Date Of Birth

Identifier: GBRTCD

The GBRTCD DataPlus set returns the date of birth for a given name.

| Element | Code | Description |
|-------------------|------|-------------------------------------|
| CCR Date of Birth | Date | Date of birth in DD/MM/YYYY format. |

GBRCCR Length Of Residency

Identifier: GBRTCL

The GBRTCL DataPlus set returns the length of residency, in years, for a given name at a given address.

| Element | Code | Description |
|-------------------------|-------|--|
| CCR Length of Residency | Years | Number of continuous years that an individual has been at the given address on the National Canvase. A value of 1 indicates that this resident is new at this address. |

GBRCCR Name Source Indicator

Identifier: GBRTCS

The GBRTCS DataPlus set returns details about the information source for a given name in the CACI Consumer Register. The Name Source Code, Name Source and Name Verified are returned.

| Element | Code | Description |
|----------------------|------------|---|
| CCR Name Source Code | SourceCode | Source of Names data. The first digit of the code is 1 for the Electoral Register, 2 for other data sources and 3 where the name source is from an earlier version of the Electoral Register but CACI have verified the name against a more recent data supply. The second digit of the code is 1 if CACI have verified the name against another data supply or 0 if not. |
| CCR Name Source | SourceName | Description of the source data; either Electoral Register or Other Data Source . |
| CCR Name Verified | Verified | Value always either Yes or No , depending on whether the name has been verified against another data supply. |

CACI Full Electoral Register (CFR)

GBRCFR Date Of Birth

Identifier: GBRTED

The GBRTED DataPlus set returns the date of birth for a given name.

| Element | Code | Description |
|-------------------|------|-------------------------------------|
| CFR Date of Birth | Date | Date of birth in DD/MM/YYYY format. |

GBRCFR Length Of Residency

Identifier: GBRTEL

The GBRTEL DataPlus set returns the length of residency, in years, for a given name at a given address.

| Element | Code | Description |
|-------------------------|-------|--|
| CFR Length of Residency | Years | Number of continuous years that an individual has been at the given address. A value of 1 indicates that this resident is new at this address. |

Using This Data

This section provides tips for address searching with IDentifier NameTracer Pro.

With IDentifier NameTracer Pro

For more information about search examples using this data with IDentifier NameTracer Pro, see the NameTracer Pro documentation.
